*Drew Peters is now the formulator for Alpha Lion, so we cover some of their supplements launched in early 2022 like SuperHuman Sport and SuperHuman Scorch*

It's time we caught up with *Drew Peters*, the new formulator (or *VP of Scientific Affairs*) at **Alpha Lion**, whose recently come out with a couple of unique supplements!

Drew has previously been on episodes 044 and 045 with other formulators, but this time, we got him to ourselves to talk about Alpha Lion's new supplements.

In this conversation, we zero in on *SuperHuman Sport*, an athlete-based pre-workout supplement with under 100 milligrams caffeine, and *SuperHuman Scorch*, an enhanced thermogenic L-carnitine liquid.

Both of these supplements contain novel ingredients from NNB Nutrition, including *RhodioPrime 6X* in SuperHuman Sport and *MitoBurn + CaloriBurn GP* in SuperHuman Scorch.

We also get into the recurring topics of *beta alanine* and creatine in pre workouts, synthetic vs. natural caffeine sources, hydration supplements, and working as a formulator remotely.
