

# Axe & Sledge Hydraulic Swamp Beast Delivers Frightening Pumps!

written by Mike Roberto | October 26, 2020

Halloween is right around the corner and the Axe & Sledge Demo Crew has a special treat for all of the hard-working M'fers out there! A few months ago, we covered one of Axe & Sledge's best selling products – Hydraulic – their stimulant-free pre-workout that delivers insane pumps and locked-in focus. Hydraulic comes in numerous non-traditional flavors such as Unicorn Blood, Shark Bite, and HWMF. Axe & Sledge decided it was time to add another creative flavor to the Hydraulic lineup – Swamp Beast!

If you're familiar with Axe & Sledge then you already know that Swamp Beast is one of the best selling flavors for their essential amino acid supplement, The Grind. Since a lot of their customers stack The Grind with Hydraulic, Axe & Sledge thought it would be a great idea to offer Hydraulic in Swamp Beast as well.

## Hydraulic Swamp Beast: Scary Pumps and Unique Flavor

If you've never tried Swamp Beast before, it's truly a one of a kind flavor! It's supposed to taste like apple berry, which is a flavor combination that's quite rare in the sports nutrition industry. We've actually never seen it done by any other company.

Nonetheless, Axe & Sledge connoisseurs really enjoy it and are going to be thrilled to see it in Hydraulic's lineup. You should also be glad to hear that Swamp Beast is not a limited edition flavor for Halloween—it's going to stick around!

Experience the power of Hydraulic with Swamp Beast!

If you're looking to try more Hydraulic flavors, here's a quick breakdown of flavor profiles:

- Shark Bite – orange mango
- Unicorn Blood – rainbow sherbert
- HWMF – rocket pop (bomb Popsicle)
- Scorpion Venom – mixed berry

Hydraulic is also available in more traditional flavors, such as lemon-lime and strawberry lemonade, as well as an Axe & Sledge special – Whiskey & Cola. Keep reading to learn more about Hydraulic and the other pre-workouts that Axe & Sledge has to offer. Don't forget to sign up to receive Axe & Sledge news and deal alerts and to save money on some of your favorite supplements!

## The Axe & Sledge Pre-Workout Lineup

Axe & Sledge has three powerful pre-workouts that each have their own distinct features. As we mentioned, Hydraulic is a stimulant-free pre-workout that's formulated to increase blood flow and nutrient and oxygen delivery to working muscles for the purpose of increasing performance and muscular pumps. Hydraulic also has several ingredients that enhance your mental energy and focus, such as L-tyrosine.

Axe and Sledge HWMF Stack, the sweet taste of hard work.

Since Hydraulic is caffeine-free, it can be taken at any time of day, which is great for those who train in the evening. We recommend cutting off your caffeine intake five to six hours before sleep so you can adequately rest and recover.

What's even more remarkable about Hydraulic is that it's Axe & Sledge's best selling supplement! Most other brands would agree that stimulant-based pre-workouts normally outsell stimulant-free pre-workout supplements.

The next pre-workout Axe & Sledge offers is Ignition Switch, a pre-workout that contains a moderate amount of caffeine, pump, and performance ingredients. Thus, if you're looking for an all-in-one pre-workout, this would be the one to go with.

The last pre-workout in Axe & Sledge's supplement line is none other than Seventh Gear! Unlike Hydraulic and Ignition Switch, Seventh Gear is loaded with several stimulants and contains nearly 400 milligrams of caffeine per serving.

Although Seventh Gear is high-energy, it doesn't contain a lot of pump ingredients. One of our favorite Axe & Sledge stacks consists of one scoop of Seventh Gear combined with two scoops of Hydraulic! If you want to try it out, we recommend starting with half a serving of each ingredient to assess your

reaction. You can also stack Ignition Switch with Hydraulic for a lower stimulant option.

## Hydraulic Ingredient Recap

Since we've already covered Hydraulic in-depth on the PricePLOW Blog, we're just going to quickly cover the formula! Hydraulic's supplement facts panel lists dosages for one scoop (some pump) and two scoops (extreme pump). Axe & Sledge recommends mixing one or two scoops of Hydraulic with 8 to 10 ounces of water and consuming it 20 to 30 minutes prior to training.

HYDRAULIC		SHARK BITE		
Supplement Facts		SOME PUMP	EXTREME PUMP	
Serving Size:	1 Scoop (10g)	2 Scoops (20g)		
Servings Per Container:	40 servings	20 servings		
	Amount Per Serving	%DV	Amount Per Serving	%DV
Niacin (as niacin)	12.5mg	63%	25mg	125%
Vitamin B6 (as pyridoxine hydrochloride)	12.5mg	625%	25mg	1250%
Vitamin B12 (as methylcobalamin)	250mcg	4167%	500mcg	8333%
Magnesium (as magnesium creatine chelate (Creatine MagnaPower®))	60mg	15%	120mg	30%
L-Citrulline	2,500mg	**	5,000mg	**
Glycerol Powder (standardized to 65% Glycerol (GlycerPump™))	1,500mg	**	3,000mg	**
Beta-Alanine (CarnoSyn®)	1,200mg	**	2,400mg	**
L-Taurine	1,000mg	**	2,000mg	**
Magnesium Creatine Chelate (Creatine MagnaPower®)	750mg	**	1,500mg	**
Arginine Sulfate (ArgiMax™)	500mg	**	1,000mg	**
L-Tyrosine	500mg	**	1,000mg	**
Arginine Silicate (Nitroarginel)	500mg	**	1,000mg	**
N-Acetyl L-Tyrosine	125mg	**	250mg	**

\*Percent Daily Values are based on a 2,000 calorie diet.  
\*\* Daily Value not established.

Other Ingredients: Silicon Dioxide, Citric Acid, Natural Flavors, Sucralose, Best Root Powder (for color).

WARNING: Consult with a physician prior to use if you have a medical condition. Don't use if pregnant or lactating. KEEP OUT OF REACH OF CHILDREN. KEEP CONTAINER TIGHTLY CLOSED IN A COOL, DRY AND DARK PLACE.

Which do you choose, some pump or extreme pump?

Here's what two scoops (20 grams) of Hydraulic provides:

- **L-Citrulline – 5g**
- **Glycerol Powder (standardized to 65% glycerol powder) (as GlycerPump) – 3g**
- **Beta-Alanine (CarnoSyn) – 2.4g**
- **L-Taurine – 2g**
- **Magnesium Creatine Chelate (as Creatine MagnaPower) – 1.5g**

- **Agmatine Sulfate (as AgmaMax) – 1g**
- **L-Tyrosine – 1g**
- **Inositol-Stabilized Arginine Silicate (as Nitrosigine) – 1g**
- **N-Acetyl-L-Tyrosine – 250mg**

Axe & Sledge uses a combination of L-citrulline, GlycerPump, AgmaMax, Creatine MagnaPower, and Nitrosigine to draw more blood flow and water into working muscles. Not only does this increase your ability to get a pump, but it also improves muscular endurance, power output, and strength.

If you feel a harmless tingling/itching sensation, it's because of the 2.4 grams of CarnoSyn beta-alanine, an ingredient designed to further boost muscular endurance. Lastly, Axe & Sledge added in L-taurine, tyrosine, and N-acetyl-L-tyrosine to improve your mind-to-muscle connection, mental energy, and focus. Overall, Hydraulic is one of the most comprehensive stimulant-free pre-workouts on the market, so it's no surprise that it's the company's best-seller.

## **Available Flavors**

Here's an updated list of all Hydraulic flavors:

## **Hydraulic: Pumps, Performance, and no Caffeine**

The sports nutrition supplement industry is saturated with thousands of pre-workouts all promising similar benefits, such as increased performance, skin-splitting pumps, great flavor, high energy, and laser focus.

Swamp Beast is truly a one of a kind flavor!

Instead of only looking at the marketing claims made on the front of the label, turn the bottle around, and examine the supplement facts panel to see if the product will really live up to the hype.

For example, if you look at Hydraulic's formula, you can clearly see the exact dosages for every ingredient. One thing it shows is that Axe & Sledge has nothing to hide. Moreover, Axe & Sledge uses five trademarked ingredients from reputable ingredient suppliers, such as Nutrition21 (makers of Nitrosigine). Not to mention, Axe & Sledge uses efficacious dosages of the highest-quality ingredients to deliver real results.

Axe & Sledge could have easily thrown a bunch of generic ingredients into a proprietary supplement blend and sell it for a high-profit margin. That's just not how Axe & Sledge operates. The four owners, Seth Feroce, Patrick Williams, Mike Rhoten, and Bobby Dautrich, instead created supplements they can stand behind and a brand that changes people's lives in a positive way.
