

# Performax Labs ProWheyMax Set to Replace IsoWheyMax

written by Mike Roberto | May 10, 2022

Performax Labs is *non-stop* lately! After their recent announcement of PhytoActivMax, they've also made an announcement of a new protein powder:

ProWheyMax is Coming Soon from Performax Labs. If you're a fan of IsoWheyMax, now's the time to stock up – they're discontinuing that one in favor of this blend here!

## ProWheyMax is coming from Performax Labs

ProWheyMax will be a high-end whey protein blend with WPC-80 (whey protein concentrate 80%) and WPI-90 (whey protein isolate). It'll also include a full 2 gram clinical dose of *Velositol* from Nutrition21 to improve uptake and muscle protein synthesis, as well as digestive enzymes.

ProWheyMax is set to replace IsoWheyMax, which is a pure whey protein isolate that also includes Velositol. If you're a big fan, then *now* is the time to stock up before it's too late!

The full label and flavor options are coming soon, and we'll update this blog post when it's ready.

Until then, you can sign up for our Performax Labs news alerts on PricePlow below:
