

Myprotein Vegan Protein Flavor Updates: Spring 2022

written by Mike Roberto | April 25, 2022

Unsurprisingly well-known for their protein supplements, **Myprotein** has kept their fans busy with some incredible new pre-workout flavors like their *Mike and Ike collab* in *The Pre-Workout*, as well as an incredible *Eddie Hall Pre-Workout*.

Getting back to protein, they snuck out a few incredible new *Layered Bar Flavors: Peanut Butter Jelly, Chocolate Coconut, and Chocolate Peanut Butter*. But how about their *protein powders*?

Myprotein's latest vegan protein powders: here for Spring 2022

As many consumers have been seeing, dairy prices are on the rise, and that's ultimately affecting whey proteins. Many users – especially those who are lactose sensitive – had already been switching to dairy-free products, and recent price increases may accelerate that. Despite that, Myprotein has kept their coupons well, and we saw some updates and new flavors in *The Whey*, a leading-edge whey protein with added probiotics and digestive enzymes.

Interestingly, the prices on vegan protein powders have been a bit more stable, and Myprotein's also been putting out plenty of new plant-based flavors! We recently wrote about *Myprotein's winter 2022 vegan flavors*, and we're back for Spring 2022.

Today, we look forward to some new flavors in a few of their vegan proteins, including **THE Plant Protein, Clear Vegan Isolate, Vegan Blend, Pea Protein**

Isolate, and **Soy Protein Isolate** – quite a few!

In this article, we're not going to explain the benefits of high-protein diets – that's generally very well understood already. The question is what *sources* of protein you want to use, and once you find a trusted brand (Myprotein), the next question is what *add-ons* and what *flavor* to try!

• Myprotein THE Plant Protein: Banana Bread and Tiramisu

One of Myprotein's most impressively formulated protein powders, *THE Plant Protein* is popular because it combines **pea protein** with **pumpkin seed protein** and **watermelon seed protein** to provide a far smoother blend than pea protein alone.

Over the past month, we've seen two new flavors hit the PricePLOW system:

- **Banana Bread**
- **Tiramisu**

THE Plant Protein's Macros

The protein blend listed above gets you the following macros:

- **Calories:** 160
- **Protein:** 25g
- **Carbs:** 8g
 - *Dietary Fiber:* 6g
 - *Sugars:* 0g
- **Fat:** 2g

• **Clear Vegan Isolate: Too many to list!**

Myprotein's Clear Vegan Isolate is *the* most unique vegan protein powder we've ever tried, bar none! Using **hydrolyzed pea protein isolate**, it's so well-refined that it settles nearly *translucently*.

The team has *quadrupled* down on this product, with *six* new flavor systems:

- **Orange Paradise**
- **Peach Lemonade**
- **Raspberry Lemonade**
- **Green Apple**
- **Blueberry**
- **Grape**

We recently reviewed the Green Apple flavor that was sent our way to celebrate St. Patrick's Day. It's surprisingly good because it's more like an *amino* drink than a *protein shake*!

Clear Vegan Isolate's Macros

This one's a bit different, with a *14.3 gram* serving size coming from *two* small scoops:

- **Calories:** 50
- **Protein:** 10g
- **Carbs:** 2g
 - *Dietary Fiber:* 0g
 - *Sugars:* 0g
- **Fat:** 0g

Again, it's more like a refreshing, thinner amino drink than a sludgy protein shake. If you want fruity flavors, this is the way to go.

• **Vegan Blend: Tiramisu and Banana Bread**

Last quarter, we discussed how Vegan blend – which contains **pea protein isolate** and **brown rice protein** – had two new flavors in *Mocha* and *Vanilla Chai*.

This quarter, just like THE Plant Protein, the new flavors are

- **Tiramisu** and

...taking on desserts rather than energized drink flavors this time!

Vegan Blend's Macros

- **Calories:** 150
- **Protein:** 21g
- **Carbs:** 14g

 - *Sugars:* 0g
- **Fat:** 1g

Update: This *Tiramisu* flavor is fantastic!

We reviewed the **Tiramisu** flavor, and it's the real deal! Just don't take it too late – there's 44 milligrams of caffeine inside!

Myprotein is relentless

Asked and answered! When Myprotein began their collab with Mike and Ike candy, we said that they *had* to get it in their pre workouts. Half

a year later... here we are!

It's tough to keep up with everything Myprotein does – we found these updates right on our very own Myprotein News page.

It's clear that vegan protein powder demand will continue to grow, *especially* if dairy prices (and their inputs, such as feed prices) continue. Vegan protein powders may be similarly affected by increases in fertilizer prices, but we'll continue to do our best to find you a great deal. Our affiliate-based Myprotein coupon often does the trick, and even during the recent supply chain crunches, Myprotein often lights up our deal alert system.

What's next for the brand? We're not sure, but if you're looking for a convenient pre-workout to pair with this, we definitely recommend some of the incredible flavors of The Pre Workout like *Black Cherry Vanilla* and *Mike and Ike Strawberry*!
